

Hailey Hutchison – Nutrition and Dietetics Undergraduate Student

I transferred into the School of Human Ecology during the spring quarter of my freshman year at Louisiana Tech University. That was one of the best choices I have made since I've been in college. The faculty of the School of Human Ecology is extremely encouraging and they all genuinely want the best for their students. I have gained the confidence, professional skills, and communication skills that I will need in order to succeed in my profession. If I had not transferred into the School of Human Ecology at the end of my freshman year I would not be the student I am today, so I will be eternally grateful for the experience I have had in the School of Human Ecology.
