

Caitlin Finton: Nutrition and Dietetics (2017)

The school of Human Ecology has given me more than I ever expected. Yes, I am here for college but I have gained so much more than just an education. I have gained confidence in my abilities and developed communications skills as well as professional skills. I have been constantly encouraged and challenged by my teachers and peers to be the best I can be. I strongly believe we have the greatest staff who love to see their students excel. I will ever loyal be.
