

Elizabeth Bonnett
Family and Child Studies

After the first quarter of my freshman year at Tech, I made the decision to transfer to the School of Human Ecology. I will always be thankful to have made that choice. I feel so at home in Human Ecology and value all the opportunities I have been given over the last few years. More than anything, I love and appreciate our mission: enhancing people's lives. My own life has been positively impacted by the classes, professors, faculty and students in Human Ecology. Everyone here has a common goal of wanting to make a meaningful impact on the world, and I am honored to be a part of such an effort.
