

## School of Biological Sciences Projected Class Offerings

The following list is a guide to when courses offered by the School of Biological Sciences (BISC, CLAB, ENSC, MSNT) are generally offered. Courses listed are those we anticipate will be offered in upcoming quarters. Some courses listed in the University *Catalog* are not included in this list because they are not regularly offered. Certain courses are offered every other year, and are noted as such with an asterisk \* and odd/even year indicated. Honors Sections are listed at the end.

***This is only a guide, course offerings may vary from this list.***
